Do you want to work in a fast paced, world class organization with a long history and an exciting future? Do you want to be part of a team based in Colmar-Berg contributing to the innovation, safety and sustainability of tires that drivers across EMEA rely on every day?

… if the answer is yes, then we have the right job for you:

**Project Engineer for our Tire Plant (m/f)**

**The opportunity**

- Lead and/or realize Engineering equipment and Infrastructure projects
- Establish technical specifications based on customer department needs as well as on Goodyear internal and legal requirements
- Create professional relationship with suppliers
- Support production and maintenance departments on existing machinery reliability improvement and major breakdowns

**To join our team you will need:**

**Education:**
The candidate should have a Master degree in Engineering (Mechanics, Electro-mechanics or Thermodynamics)

**Experience:**
Experience in an industrial/technical environment is an asset

**Languages:**
- Fluency in English is mandatory.
- Fluency of either German or French is mandatory (both would be a major advantage).

**Skills & Qualifications:**
- Strong analytical skills
- Proactive mindset
- Active team member, self motivated
- Ability to communicate internally and externally
- Open-minded and flexible
- Working in a plant environment is part of the job
- Committed to planning and results
- Flexible personal availability if needed
