Dear students,

Huawei Technologies Belgium is organizing a **Company Day**! We would like to invite suitable students finishing their studies (MA2) this year to get to know more about our company and to offer them a **promising career**.

During the Company Day, you will be able to attend a presentation about our company’s culture and business as well as the different career possibilities that Huawei offers to its employees. Those presentations will take place in Huawei’s Cyber Security center in Brussels of which recent opening was covered by the media.

You will then be able to take part in different rounds of **interviews with members of the company**. Once the interviews are over, we will give **job offers** to the participants who seem fit for a position at Huawei.

The Company Day is scheduled on the **25th of April**. As it will start at 11 am and finish around 6 pm, we will provide refreshments and food for all attendees. The **train tickets will be refunded** the same day for students from outside Brussels!

We are looking for students of different majors, but mostly two categories: **IT related studies** (ICT, engineering, etc.), as well as **management and international studies** (HR, management, finance, international trade, international business, international law, international relations, etc.). Your major is not mentioned here, but you think your profile is interesting for our team? **Give it a try and send your application**!

As the amount of students for this event is limited, do not hesitate to send your CV as soon as possible to this address: **jobs_belgium@huawei.com**

If you are selected, we will send you the full schedule of the event.

Should you wish to know more about Huawei, please check our website: **https://huawei.eu/**

Looking forward to meeting you!

Team Huawei
